

Plaza on the Lake - Feb 2020 Report

Executive Summary

Continue to manage usage (kwh) and peaks(kw) well. Continue to see unusual peak set starting at 8am. Feb 6th peak was similar to Jan 6th peak of last month.

Goal for Next Month: Determine what happened on Jan 6th to avoid setting similar peaks going forward if possible. Continue good work on managing morning startup to minimize morning peaks. If peaks could be managed down to 500kw, that would save \$1,000 / month.

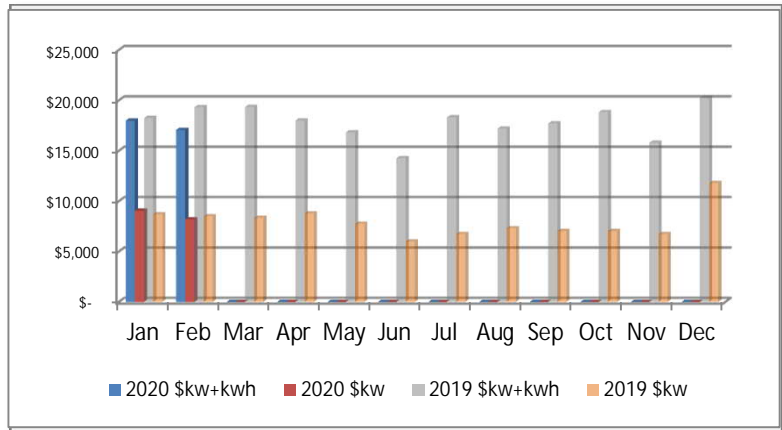

Electric Cost

2020 Usage(kwh) & Peak(kw) Costs

0.057 \$/kwh

14.39 \$/kw
